DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

Drawings

2. The drawings are objected to because of the following minor informalities. In fig. 2, numbers 12, 14, 16 and 18, representing multiple wireless communication systems such as WLAN, UMTS, and CDMA2000 are shown. However, within each of these wireless communication systems cylindrical and rectangular boxes including a sign of antenna are included without labeling and explaining them. For purposes of examination, the Examiner assumed the rectangular boxes as bases stations and the cylindrical boxes as databases or some kind of storage for each of the wireless communication systems. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and

informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 22-25 and 29-42 are allowed. The following is a statement of reasons for the indication of allowable subject matter:

None of the prior art of record taken singularly or in combination reasonably teaches or suggests the combined functional limitations enabling “first bearer has Quality of Service (QoS) requirements defined according to the first wireless communication system; translating, in the WTRU, the QoS requirements defined according to the first wireless communication to QoS requirements defined according to a second wireless communication system of a second type; in response to the handover, the WTRU communicating data via the second wireless communication system using a second bearer, wherein the second bearer has the translated QoS requirements, and the WTRU continuing the session in the second wireless communication system using the translated QoS requirement.”

The closest prior art, Reynolds (US Patent 7,149,524 B2) teaches establishing a session in a first wireless communication network or system, and when the user moves to a different or second wireless communication system, the session is handed over to the second wireless communication system without interrupting the session (fig. 1; col. 2, line 14-col. 3, line 6). However, as indicated above, Reynolds fail to teach first bearer has Quality of Service (QoS) requirements defined according to the first wireless communication system; translating, in the WTRU, the QoS requirements defined according to the first wireless communication to QoS requirements defined according to a second wireless communication system of a second type; in

response to the handover, the WTRU communicating data via the second wireless communication system using a second bearer, wherein the second bearer has the translated QoS requirements, and the WTRU continuing the session in the second wireless communication system using the translated QoS requirement.

Conclusion

4. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
